

Imaginx branded product only from Think Ink Solutions

Wide format solvent inks

We have solutions available for a range of printers:

- **Roland**
- **Mimaki**
- **Mutoh**
- **Epson**

All inks are supplied in OEM equivalent packaging including matching chips for easy plug and print installation without a need for a technician, so no printer down-time.

Imaginx are low odour and are safe to use in unventilated environments. Designed to be used on high speed printers with no need to flush or spend costly time re profiling.

You can use directly on top of the OEM Roland ink and replace cartridges individually or replace the complete set of Imaginx inks.

We also supply in 1 litre bottles for those customers that have bulk ink refill systems.

Who we are

About Us

Think Ink Solutions is a UK based company offering a variety of products for many ink jet applications. From **Eco Solvent to Hard Solvent, Grand Format, Textile, Postal, UV, Coding & Marking** and **water based inks** we have a comprehensive range of products.

Our experienced development team are able to offer custom ink formulations for the Graphics and Industrial markets.

Think Ink Solutions Ltd has broadened the range of services to include a **Blending and Toll manufacturing service** for a wide range of solutions such as solvent based blends, 100% solid and standard aqueous products.

**Roland
Data
Sheet**

Think ink. Think solutions. Think of us.

- Formulated specifically as a direct replacement to OEM ink.
- Colour matched to the OEM therefore no re-profiling required.
- Excellent adhesion on most recognised ink media available in the market.
- Excellent outdoor durability with proven resistance to colour fading.
- Simple change over from OEM ink with no flushing required.
- We can save you money without compromising quality.
- Strict quality control process during the production and filling process ensuring consistent and reliable product.

Our inks are designed for an easy change over for users of original **Roland DG large format digital printers.**
